The 21” EndoVue® SE delivers the image performance of a high-end surgical display at a fraction of the cost. Targeted for cost-sensitive emerging markets, the 21” EndoVue® SE is a great value. It features an LED backlight and supports both digital and analog high-definition video inputs. The 21” EndoVue® SE is an affordable alternative to a full-featured surgical display. It accommodates high-definition signals from a variety of medical imaging sources, including endoscopes, ultrasound, PACS, and vital signs. It also features a fanless cooling design to minimize the risk of spreading airborne contaminants within the sterile field.
